

SANJAY KRISHNAN S

sanjaykrishnan437@gmail.com || +91 8072286139 || [LinkedIn](#) || [GitHub](#) || [Portfolio](#)

SUMMARY

Focused and adaptable professional with a strong commitment to learning, growth, and delivering high-quality results. Known for problem-solving abilities, collaborative mindset, and dedication to achieving organizational goals.

SKILLS SUMMARY

- **Languages:** Python, SQL, Java
- **Machine Learning:** Scikit-learn, Pandas, NumPy
- **Data Analysis & Visualization:** Matplotlib, seaborn, Power BI, Excel
- **Deep Learning:** TensorFlow, Keras, PyTorch, CNN, RNN, NLP
- **Tools/IDE's:** MYSQL, Jupyter Notebook, Google Colab, VS Code Editor
- **Version Control:** Git, GitHub
- **Others:** Data structures and Algorithms, StreamLit

INTERNSHIP EXPERIENCE

- | | |
|--|---|
| AI Engineer Intern, Sortyx Venture Private Limited | 03/2026 – Present
Chennai (On-Site) |
| <ul style="list-style-type: none">• Developed AI SaaS solutions and platform, automation workflows, IoT-based systems, and application development for real-world business needs.• Built and optimized intelligent systems to improve operational efficiency, user experience, and digital transformation initiatives. | |
| AI & ML Internship, IBM Skills Build (AICTE) | 06/2025 – 07/2025
(Virtual) |
| <ul style="list-style-type: none">• Built and deployed an ML-based sales prediction model in Python, achieving ~85% accuracy after EDA, feature engineering, and cross-validation.• Improved model F1-score through systematic hyperparameter tuning and applied responsible AI practices including bias evaluation and model explainability. | |

PROJECTS

Explainable AI Intelligence and Learning Analysis, [Github](#)

- Developed an Explainable AI Learning Assistant with personalized recommendations, progress tracking, interactive learning support, and explainable AI features to enhance transparency and learner trust.
- **Tools Used:** React, TypeScript, Tailwind CSS, Firebase, Express.js, Node.js, Groq SDK (Llama 3.1).

Aquafier Intelligence Platform, [Github](#)

- Developed the Aquifer Intelligence Platform using NASA, NOAA, and USGS APIs for groundwater forecasting, historical analysis, site recommendation, regulatory compliance, and well monitoring with intelligent data pipelines and analytics workflows.
- **Tools Used:** Python, FastAPI, SQLite, React, TypeScript, API Integration, Data Analytics, ML, GIS Mapping

FastAPI Payslip Generator & Automated Email System, [Github](#)

- Built a FastAPI backend to process payroll data, generate PDF payslips, and automate bulk email delivery with async processing and error logging.
- **Tools Used:** Python, FastAPI, Email ReportLab

EDUCATION

B.Tech - Artificial Intelligence and Data Science, Dhanalakshmi Srinivasan Engineering College CGPA – 8.0	2022 - 2026
--	--------------------

CERTIFICATIONS

Introduction to Machine Learning - NPTEL	Machine Learning Specialization - Coursera
Data Science Masterclass - Udemy	IBM Deep Learning - Coursera
Intro to SQL - Kaggle
